## LASER TREATMENTS

Both **Secret RF & Morpheus8** are micro-needling devices that deliver radio frequency into the skin to stimulate collagen and elastin production, as a result, tightening, brightening and improving the texture of the skin. Both the Morpheus 8 and [Secret RF](#) can target different depths within the skin however, unlike the Morpheus 8 which can change depth in millimeters, the Secret RF has the ability to change depth per 500 micrometers – that's super accurate control! Your therapist can change depth with the simple touch of the screen and can therefore target multiple skin complaints in one session. Because of the accurate control, Secret RF is suitable for all skin types unlike many other RF treatments which aren't suitable for darker skin types.
